Description

YETI 200X HIGHLIGHTS

- Compact, Lightweight Power Station. The Yeti 200X Power Station delivers high-quality lithium power you can rely on, housed in an ultraportable design made to take anywhere. Yeti 200X is one of the most lightweight power stations on the market and the lightest Goal Zero Yeti to date.
- High-Speed Charging Solution. Equipped with the latest charging technology, including a high-speed Power Delivery port capable of charging USB-C laptops, tablets, mirrorless cameras, and phones in a fraction of the time.
- Solar Ready. Charge the Yeti 200X from the sun with our portable solar panels while away from the grid and keep it topped off from a wall outlet when you're home.
- Pair Your Yeti With Solar. Take your Yeti completely off grid by pairing with one of our solar panels

THREE WAYS TO CHARGE THE YETI 200X

- From The Sun. Recharge from the sun by connecting a compatible solar panel.
- From The Wall. Plug it into the wall. Fully recharges in 4 hours using included 60W power supply, or plug in with the Yeti X 120W Power Supply to halve that charge time.
- From The Car. Plug into your vehicle's 12V outlet using the Goal Zero Yeti Lithium 12V Car Charging Cable

NOTE: Do not attempt to charge your Yeti Lithium from a 12V source using any other cable. Doing so may cause damage to the unit.

YETI 200X RECHARGE TIMES

AC Wall Charger

· Wall Charger: 4 Hours

Solar

- Nomad 20: 12-24 Hours
- Nomad 50: 5-10 Hours
- Boulder 50: 5-10 Hours
