Description

Connect a Jackery Portable Solar Panel to your compatible Jackery Power Station and stay charged with the power of the sun. The Jackery SolarSaga 100W is a monocrystalline solar panel with high conversion efficiency of up to 23%. It is ideally suited for outdoor life and even unexpected power outages. The solar panel is lightweight at only 4.1kg's, and is foldable with an easy-carry handle making it super portable.

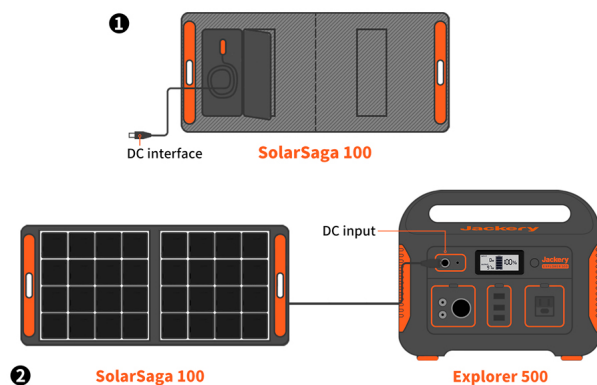

- **High conversion efficiency solar generator:**
High conversion efficiency solar panel allows you to create a portable power system together with the Jackery Explorer 500 or 250 (sold separately). Ideally suited for camping, off-grid trips, outdoor life and even unexpected power outages.
- **Solar charger with USB outputs:**
Equipped with 1* USB-A output port and 1* USB-C output port allows for charging of multiple portable devices at the same time, including Smartphones, tablets, digital cameras and more.
- **Lightweight and durable solar pane with kickstand:**
Foldable design with a TPE rubber handle and weighing only 4.1kg's. Convenient to carry wherever you go. Use the kickstand to slightly adjust the angle for maximum sunlight. Made from durable cloth, zipper and PET material, high-temperature resistant (the solar panel is not waterproof).

Highly Efficient: The Jackery SolarSaga 100 provides high conversion efficiency of up to 23%. This allows the panels to generate more energy and perform better than conventional panels in sunny weather.

Durable: The SolarSaga is made from durable ETFE material giving it a longer lifespan and allowing for higher light transmittance. The exterior shell is also designed for protection and durability.

Powerful: You can power multiple portable devices at once with two power outlets. The SolarSaga 100 has two ports – a USB-A output port and a USB-C output port .

Portable & Foldable: The Jackery SolarSaga 100 is the ideal portable power companion. It is very lightweight at just over 4kg's and its slim design (just 4.5 cm thick when folded) makes it portable and easy to transport. The panel is foldable for safe and easy transportation.
