Description

The OmniBlend I has a turn-dial that allows for variable speed control, and the pulse function is added for a quick chop. This model combines simplicity and performance, and is well-suited for restaurant kitchens, food processing, and home use.

Similar to the other OmniBlend models, it has a 3HP motor with 2238W peak performance. The motor is protected from overheating with a built-in thermal shut-off. The moving parts are stainless steel, adding to its durability and performance.

The 4 litre jug is suited for blending food & liquids, which makes it well suited for restaurant kitchens, food processing facilities, hospitals, frail care homes, and the like. The blades are removable and replaceable. The 4ltr jug doesn't fit in the sound cover. The tamper is included.

PRODUCT DETAILS

Includes: blender base, jug, tamper

Interface: turn-dial for variable speed control; pulse switch

Colour Options: black, maroon, white

Sound Enclosure: no (the 1.5ltr models are compatible with a sound enclosure)

Jug Capacity: 4Ltr; heat resistant up to 120 Celsius

Jug Material: Polycarbonate; light-weight and easy to clean
