

COOLING • HEATING • AIR QUALITY SOLUTIONS

Comefresh CF8608 Air Purifier

The Comefresh CF8608 Air Purifier system with its innovative Swiss design is the number one rated CADR Air Purifier in China based on similar product size and offers extremely high air filtration efficiency capturing airborne particles including allergens, pollen, dust, smoke and pet dander.

This is done by means of an advanced multi-stage cleaning system:

- Pre-filter (removes the large airborne particles)
- True HEPA filter (removes particles from the air as small as 0.3 microns – smaller than the eye can see)
- Carbon filter (removes smells and odours)

COOLING • HEATING • AIR QUALITY SOLUTIONS

With its ability to capture and destroy bacteria and viruses the Comefresh CF8608 Air Purifier results in a 99% reduction in E.coli, P. Cintrinum and A. Niger. This unit therefore comes highly recommended to protect public facilities, doctor's rooms and hospital rooms for patients. It further reduces VOCs, toxic fumes and foul odours.

Unlike many portable air purifiers, the Comefresh CF8608 Air Purifier is extremely quiet (less than 29dB on low speed and less than 49dB on high speed) and can treat the air of spaces of up to 50m².

The Comefresh CF8608 Air Purifier comes with a remote control and features feather-touch controls that enable you to quickly and easily change the settings as you run your fingers over the panel.

This air purifier boasts a dust sensor to indicate the indoor air quality and by means of an auto-function further automatically adjusts the fan speed accordingly.

The enhanced charcoal and HEPA filters on the Comefresh CF8608 have a rubber gasket seal to ensure that no air leaves the air purifier uncleaned.

Key Features

- Innovative Swiss design
- Feather-touch controls
- Energy-efficient (only 70 watts)
- Multi-stage purification system
- 99% reduction in E.coli, P. Cintrinum & A. Niger
- Remote control for better use
- Dust sensor to indicate the indoor air quality
- Auto function to adjust the fan speed according to the air quality
- 4 speed settings
- Timer with 3 settings (2hr, 4hr and 8hr)
