

## DNA Slow Juicer

Our favourite juicer under R5000. This horizontal juicer juices celery and leafy greens very well. It's also a great all round juicer. The large

feeding chute will also allow you to feed whole apples into the juicer. The DNA Slow Juicer is an excellent affordable alternative to the Oscar Juicer, which is widely regarded as the best juicer on the market.

Description

Enjoy smooth and silky juice in its purest form with the NEW DNA Slow Juicer. With the 75mm X-Large Smart Feed chute, you can juice whole fruits and vegetables saving you preparation time and effort. The DNA Slow Juicer design minimises heat build-up and oxidation so you can get more nutrients in every glass and also extracts the maximum amount of nutrients, vitamins, taste, and juice from the minimum amount of fruits and vegetables.

The DNA Slow Juicer offers super Easy Cleaning, guarantees to produce the highest quality raw juice, and is perfectly suited for leafy greens and stringy vegetables like Kale, Celery, Spinach, and more.
