Description

ECO150 | UPS System | 150W Inverter | Backup Power Station

Backup Battery & 300 Watt Inverter Delivering 150 watts of power, the ECO150 Backup Power Station will power an average size office for 5.8 hours. This is based on an office drawing 70 watts of power. When operating at the maximum capacity of 150 watts, the ECO150 will provide backup power for 4 to 5 hours. These calculations are based on the unit being used with a 65Ah battery. You can however use a larger battery with the unit.

"The perfect solution to keeping productive during load shedding. A great solution for those teaching online."
