Description

Unique Features

99.99% Purification Efficiency and Effectiveness

Distilled water is the purest water. Buying your own water distiller means that you don't have to buy bottled water or risk waterborne disease and toxicity. Purifying your water at home with a water distiller, works out far more economical than buying water and is a greener solution too.

Easy to use

Go Natural's selected water distillers is easy to operate and is excellent for home use and built to last! It makes 4 litres of pure, distilled water in 5 & 1/2 hours.

Lightweight and easy to store

The Go Natural Distiller water distiller is a firm favourite. Since it requires no assembly, no installation and no water hook-ups, the Go Natural Distiller is at home anywhere. Simply fill the stainless steel boiler with tap water, press the start button, and soon you'll be enjoying deliciously pure and refreshing water every day!

Compact and portable

Lightweight and easy to store, the Go Natural water distiller is a world traveler. You can have a supply of pure, fresh, homemade distilled water no matter where you are. Since it requires no assembly, no installation and no water hook-ups, the Go Natural Distiller is at home anywhere. Simply fill the stainless steel boiler with tap water, press the start button, and soon you'll be enjoying the most deliciously pure and refreshing water you've ever had!

As with all GO NATURAL'S distillers, the Go Natural Distiller combines steam distillation with carbon post filtration, resulting in optimum water purity. Automatic shutoff after each 4 liter cycle.

Benefits of Go Natural's range of Water Distillers

- Produces the purest water every time, 99.99% pure.
- No installation required
- As simple to use as a kettle
- 4l litres of clean, refreshing distilled water is produced every 5.5 hours
- Conveniently switches off at the end of its 4 hour cycle
- Small enough to take with you when you're on holiday
- Not built in, so you can take it with you when you move
- Stainless steel boiling tank for longer life
- Glass Collection Jug
- Efficient, economical and reliable
- Save your money and our environment by not needing to buy bottled water anymore.

You know it's working because you can see what has been removed from the water. No other purification system can produce water as pure as water distillers can. This is a scientifically validated fact.
