Description

The grain mill FIDIBUS 21 measures just 32 cm in height and can easily compete with the really large grain mills in terms of performance. A 250-watt industrial motor that grinds 100 g of fine flour per minute is housed in the attractive beech multiplex housing. Whether unripe spelt, barley or spelt - 850 g of soft grain fit in the solid wood hopper. Enough to prepare 1 kg of wholemeal bread. This makes the FIDIBUS 21 particularly suitable for the small kitchen, the small household and for everyone who would like to discover the world of enjoyment of the wholefood kitchen for themselves.

The most important facts at a glance:
