Colour: Phantom Grey

Dimensions Outer (HWD): 330 x 370 x 380 mm

Dimensions Inner (HWD) : 270 x 260 x 203 mm

Weight: 9.5kg

Care Instructions

Matters that required attention during use

1. Wash all the components after removing the packing materials, stickers and labels and cleanly washing them with a neutral detergent.
2. Mount the oil pan at the bottom part of the product at all times.

3. When taking out cooked food after cooking is completed, use a pair of oven gloves, a rotisserie handle, a pair of tongs, etc. and be careful with burn.
4. Be careful not to allow food ingredient, paper foil, etc. to contact the hot wire at the top or the internal wall. It may cause a fire.
5. When the pause button is pressed during operation, the fan operates for 1 minute to emit the internal heat.
6. When the door is opened during operation, the operation is stopped by the safety sensor and, when the door is closed, operation starts again.
7. If the door of the air fryer is in an open state and not closed within 5 minutes, the operation ends.
8. Allow the product to idle at 200°C for 10 minutes before using it for the first time. Smoke or smell may be generated due to combustion of the coating liquid on the hot wire.

Washing and storing method

Be sure to wash the product after the power plug is pulled out and the body and components are fully cooled down.

Clean used components with a kitchen detergent after soaking them in warm water. Lightly wipe the outside/inside of the body with a piece of moistened soft fabric and, if contamination is severe, wipe it off using a mild detergent.

Remove oily dirt from the air outlet on the back with a cotton swab. Be sure to wear a pair of washing gloves when cleaning a sharp component like the rotisserie fork. Store the washed product and the components in a well ventilated place after drying them well. Remove food waste on the hot wire inside the product by sweeping it with a soft cleaning brush.

Warranty

The Kuvings Air Oven comes with a standard 2 year warranty. To extend your warranty from a 2 year to a **FREE 3 year warranty**, please follow the extended warranty registration steps [here](#).
