Description

Advanced 3 HP Technology for Superior Blending

The Omni Blender is equipped with a high energy-efficient self-regulating / compensating 3 hp motor (the latest technology to save power and still provide optimum torque).

1.5L Litre Polycarbonate Jug

The blender features the Polycarbonate 1.5 L container (OMNI Container has a 1.5 liter jug) that contains an improved multi-function OMNI Cutting Blade (6 knives);

Why Omniblend V?

Heavy Duty Professional Super Blender - Can process any food in a very short time. Mixes, pulverises and kneads with multi-knife blades. This blender is particularly popular with home users, caterers, chefs and restaurant owners that require a durable super blender, which is able to blend the toughest of ingredients in the fastest time.

Multi-functional - Blending, mixing, grinding, milling, mincing, kneading, whipping, chopping, hashing and pureeing.

Industrial High Speed Motor - Achieves incredible Blending speeds of up to 38000 RPM.

3 HP Power - The motor delivers 3 Horsepower of force, which quickly purees and blends even the toughest ingredients.

Durability - Rugged Construction - outlasts many other blenders 5 to 1.

2 in 1 Stainless Steel Cutting Blades - Specially designed stainless Steel utility blades (made in Japan) are excellent for processing food into powder without moisture, producing soft powder with less friction between the container and food.

Wet and Dry Application - The stainless steel cutting blades have 6 cutting blades, which are designed for wet and dry blending with ease.

Replaceable Blades - Easily replaceable stainless steel cutting blades (saves replacing whole jug).

High capacity containers/jugs - Comes with 1.5 litre jug, with optional 2 litre jug.

Light Weight - Light weight, stackable, premium quality, transparent, virtually unbreakable poly carbonate jug.

Easy to clean - Saves time and effort.

Cool Motor - Specially designed to protect the food from any motor heat, thereby minimising nutrient loss.

Intelligent Censor - To prolong the operating life and prevent breakdowns, the power is automatically turned off when excessive usage is detected.

Specifications

Model: TM-800

Voltage: 220 V Frequency 60Hz

Power Consumption: 950 watt

Speed: 38000 RPM

Motor: 3 HP

Capacity: 1.5 Litre

Warranty: 2 Year Manufacturer's Warranty on Motor.

Dimensions and Weight:

Shipping Box Size: 518 x 256 x 282 mm (20 x 19 x 11")

Shipping Weight: 5.5 Kg (12 Lbs)

Friday, 03 June 2016

I recently bought an Omniblend from Ecohub. This is an amazing blender at an excellent price. It stands up well against top of the range blenders like the Vitamix which is far beyond my budget.

Ecohub's service was quick and efficient with very helpful advice being given before purchase. I'm busy saving up for an Oscar juicer.
