Description

"THE VENTURE 30 RECHARGER IS MADE TO TAKE A KNOCK OR TWO AND HAS AN IPX6 WEATHERPROOF RATING, SO IT'S AT

HOME AROUND THE CAMPSITE NO MATTER THE WEATHER."

VENTURE 30 HIGHLIGHTS

7,800mAh Recharger

Power phones, tablets, cameras, and more. Lightweight and packable from the airport to the trail.

Weatherproof Design

Spray it down, take it to the beach, leave it in the rain. Engineered with an IPX6 rating to handle whatever Mother Nature can throw at you, no rubber plugs needed.

Dual 2.4A USB Ports

Two high-speed ports capable of dishing out the fastest charge possible, at the same time. Power two devices at once or share with a buddy.

Built-in Micro-USB Cable

Tangle-free charging for phones and tablets. Certified cables for efficient charging.

NOMAD 7 PLUS HIGHLIGHTS

Smart Charging for Phones

The Nomad 7 Plus features an auto restart that's smarter than anything else on the market. With the ability to track power flow history, it knows the difference between a device that has reached a fully charged state and one that disconnects due to environmental causes, i.e. lack of sunlight, shadow, solar eclipse, etc. When the latter is detected, it automatically reconnects the charging device, no extra work on your part is needed.

Rugged and Modular

Detachable kickstand provides optimum angle placement, natural shade for charging devices and a vented pocket for temperature regulation. Weatherproof layering easily sloughs rain and snow.

Junction Box + Solar Intensity Indicator

Several key components work together to ensure you have the best solar charging experience, including the Solar Intensity Indicator. These 4 LED lights are indicative of current solar conditions and give you an idea of how well your gear will charge.

WHAT CAN THE VENTURE 30 POWER?

The Venture 30 is great for smaller USB powered devices.

- Smartphone 2-3 Recharges
- POV Camera 5 Recharges
- Headlamp 5-10 Recharges
- Tablet 1 Recharge

TWO WAYS TO CHARGE THE VENTURE 30

- Recharge the Venture 30 from the sun with the Nomad 7 Solar Panel in about 8-16 sun hours. Charge time varies due to location and proximity of the sun to the panel and weather. If you need to solar charge faster, we suggest using the Nomad 13 or Nomad 14 Plus Solar Panel.
- The Venture 30 can be recharged from a USB source in about 5 hours. The Venture 30 can be recharged from a USB source in about 5 hours.
